

# Message from the Owners

Hi there!

Back in 1999, we had a desire to open up a new kind of Barbershop. One that brings back that old fashioned Barbershop Experience and, very importantly, pays the Barbers what they deserve! A Barbershop concept that allows our Barbers to have set schedules and to build a great following for themselves.

18 years later our vision has been a success! With over 30 locations and 250 Barbers calling The Barbers their home, we hope that you will consider us as you plan your career path in this Industry. We are confident you will love what you see.

All the best!

*Don and Alison Lovell, Owners*
